Sponsorship Information

The University of British Columbia (UBC) is honored to host CANCOM 2026 on their Vancouver campus August 10-13, 2026. CANCOM is the premier Canadian conference on composite materials and is expected to attract researchers, industry members, others involved with composite materials from around the world. The conference will feature an education day, three days of research presentations, and opportunities for networking and engaging discussions during the reception, banquet, lunches, and coffee breaks.

Why should you exhibit at CANCOM?

CANCOM 2026 is expected to attract researchers, industry members, and others involved with composite materials from around the world. This is a chance to meet key players in the Canadian and international industry, promote your products, and learn more about composites in general.

Spaces for booths are available that will allow you to setup promotional materials, demonstrate your products, and engage with attendees.
